New Web Site

AJ Lucas is pleased to announce the release of its new web site. This is the first major update of the web site since the Company listed on the ASX in 1999. Subsequently, the Company has experienced significant growth increasing its annual turnover from \$23 million to \$430 million - \$450 million expected in the current financial year.

This growth reflects the careful positioning of the Company in providing specialist infrastructure and construction solutions to selected industries, most particularly the water and waste water, oil and gas, resources and property industries. All of these industries continue to experience high growth.

AJ Lucas has focused on providing particular niche services within these industries and established itself as a market leader in each of its chosen activities. These include:

- Design and installation of pipelines and related infrastructure;
- Drilling services, particularly for the coal and coal seam gas industries;
- Construction and civil engineering; and
- Project management and other professional engineering services.

Further details can be found at the web site located at www.lucas.com.au.

About AJ Lucas Group Limited

AJ Lucas is a leading provider of both specialist infrastructure and mining services. It is the leading supplier of drilling services to Australia's coal and coal seam gas industries. It is also Australia's largest builder of long distance gas pipelines. Other divisions provide gas management services to the coal and coal seam gas industry, construction, civil and property services.

AJ Lucas also has a significant coal seam gas portfolio with a 70% interest in PEL285 in the Gloucester Basin, a 15% shareholding in Sydney Gas limited, 15% of ATP651 in the Surat Basin and a 60% shareholding in Arawn Energy Limited, which is currently drilling in British Columbia in Canada.
